A Fine Program for Chautauqua

The program for the Chautauqua this year is fully up to the good standard set by other years and the patrons of this annual festival of music, lectures, etc., will make no mistake in purchasing tickets for the whole series.

The program consists of Herrick, the musical entertainer; Tomlinson's lecture "In Defence of Civilization"; The Australian artists in two splendid concerts; McCullough's lecture "Some Inside Facts on Political Europe"; R. K. Breed, entertainer; Dr. Bradford in "The Way Up"; C. V. Hall's lecture on Tutankhamon; and a sparkling comedy in three acts entitled "The Mollusc."

Season tickets, which include the whole program, are adults \$2.25 with 25 cents tax added; \$1.00 and tax for children. Single admissions for both adults and children will be 75 cents and 40 cents, tax extra.

Russell Berscht Breaks Record

At the Interscholastic Field Day events held in Calgary on Tuesday afternoon Russell Berscht who is attending Mount Royal College brought honors to his College as well as himself by winning the 100 yards in Class C in 10 4.5 seconds both in the heat and the finish, breaking a record. Here's what the Morning Albertan has to say:

R. Berscht, a well known Didsbury youth, who is attending Mount Royal, provided one of the greatest surprises of the afternoon, when he ran 100 yards in C. Class in 10 4.5 seconds, both in the heat and the final. This is 2.5 better than ever before and is but 1.5 of a second slower than the D class senior record made by Jack McKay two years ago. Berscht is but 17 years of age and gives promise of being a wonderful sprinter if properly coached. He had a great race with Abe Pasternack, of Crescent Heights, getting well away and breaking the tape at least a yard in front. Pasternack lowered the 1:40 3.5 time in the 66 yards run to 1:40 1.5 after a great race with Singleton and Austin. Crescent equalled the C class relay record of 17 seconds.

Miners Strike Settled

MINERS STRIKE SETTLED
The long drawn out coal strike was settled last week after protracted negotiations. The agreement made between the miners and operators will be put before the miners for ratification before they commence work but it is fully expected that the agreement will be accepted by the men and that they will all start work again within a few days.

The new agreement covers a reduction in wages to the miners and is for the period of three years.

The negotiations took some time to complete and Premier Greenfield, J. Murdock, Minister of Labor in the Dominion Government and F. E. Harrison, fair wage officer all took part. It is not expected that the consumers will benefit much more than 25 cents per ton on the cost of their coal.

The three year agreement will give greater stability to the industry and it is expected now that a definite and bigger drive will be made for the Ontario and Manitoba markets.

Bad Auto Smash

A bad auto smash-up occurred on Saturday night on the south road east of town at the turn crossing the culvert. It seems Messrs. Hale and Wayne Gochee were driving home in their truck and another car was coming from the east occupied by parties from Irricana who had been out shooting and had taken the wrong road home. The two cars came head on, smashing up the front works pretty badly. Hale Gochee who was sitting with his brother Wayne, who was driving, sustained severe cuts all over the face and is confined to the Didsbury hospital under the care of Dr. W. G. Evans. None of the other occupants of the cars were hurt much excepting for being shaken up but the cars are also in Stevens auto hospital and it will take some time to repair them.

Crows Nest Agreement Thrown Out

The report of the board of railway commissions in regard to the Crows Nest Pass freight rate agreement was made public in Ottawa on Tuesday.

The majority report puts the rates back to where they were on July 6th, 1924, thus abrogating the full agreement again put into force by parliament at its last session.

The whole west is aroused over the decision and great dissatisfaction is expressed at the ruling which it is expected will have serious results.

SALE OF TOWN PROPERTY BY TENDER

SEALED TENDERS addressed to L. E. Clarry, Esq., R. C. Master in Chambers, Court House, Calgary, Alberta, will be received up to the 10th day of November, at the hour of 11:00 o'clock in the forenoon for the purchase of Lot 21, Block 10, Plan "Didsbury 174-1".

ON THE LOT THERE is a 9 roomed, 2 storey, brick veneered house 24 ft. by 28 ft. with an addition 16 feet by 28 feet. The building is heated by a hot air furnace and has a concrete basement under the main building, faces south, and has a verandah along the entire front. There is a small stable 16 feet by 20 feet with an addition 16 ft by 16 feet. The premises are fenced with lawn and hog wire fence.

PURCHASER MUST assume taxes for 1924. Terms 10 per cent. cash, 15 per cent. within 60 days without interest, and the balance in three equal instalments in 12, 24, and 36 months with interest at 8 per cent. per annum, or if the purchaser desires, full payment will be accepted within 60 days without interest.

MARKED CHEQUE for 5 per cent. of the offer must accompany tender.

ALL PAYMENTS other than the deposit to be made to the Clerk of the Supreme Court of Alberta, at Calgary. No tender for less than \$2,400 will be considered. No tender necessarily accepted.

STANDING CONDITIONS OF SALE TO APPLY.

ACTION NO. 23132, Supreme Court, Calgary, Alberta.

FURTHER PARTICULARS may be obtained from Messrs. Freeman and Austin, Solicitors for the Plaintiff, Didsbury, Alberta.

DATED AT Calgary the 8th day of October, A. D. 1924.

Approved, (Sgd.) E. P. McNeil, L. J.

(Sgd.) A. G. A. Clowes, Clerk, 3c12

The War To End War

How often during the fateful years 1914 to 1918, while the colossal struggle between Germany and the Allies was in progress was heard the expression that this was a war to end war. This idea was embodied in the appeals made by all Allied Governments to their people to loyally and even cheerfully bear the heavy burdens being imposed upon them and to endure the terrible sacrifices they were called upon to make. Thousands of husbands and fathers fought and suffered and died declaring it was worth while if by such sacrifice the world of mankind was to be forever freed from the horrors of war. "Never again" was the watchword of these heroic souls as, dying, they felt assured their descendants would never be called upon to face what they had endured.

But although the bugles sounded "Cease fire" along the great battle line on November 11, 1918, the war to end war was not then concluded. It is not yet concluded. Wars are even now in progress in different parts of the world, but more significant than these local struggles is the fact that, even with the elimination of Russia, the European Allies in the Great World War have a larger number of men under arms today than Germany, Austria-Hungary, Turkey and Bulgaria had when the Great War began in 1914.

Today the peace strength of France, Italy, Britain, Poland, Rumania, Belgium, Czechoslovakia and Yugoslavia is 1,937,000 men, while in 1914 the peace strength of Germany, Austria-Hungary, Bulgaria and Turkey was 1,504,999, or nearly half a million less.

The financial burden imposed on these war impoverished countries in maintaining nearly two million men in military idleness is an appalling one. Important advances have been made in reduction in naval armaments, and it is probable that more will follow, but as yet the even greater menace to the peace of the world constituted by huge standing armies exists.

The whole race of mankind must rejoice, therefore, that the League of Nations is leaving no stone unturned to bring about, first, a binding agreement among all nations calculated to make war almost impossible of outbreak and banish it from among the calculations which today every European country has to consider, and, secondly, to bring about an early and drastic reduction in all standing armies and armaments along lines which are proving effective in the reduction of navies and naval expenditures.

Some people still scoff at the League of Nations. They criticize and condemn it because it has not accomplished more. Yet when its achievements in the six years which have elapsed since the Covenant was drafted and signed are studied, the amazing thing is not what it has failed to do in that short space of time, but that it has accomplished so much, and has secured such a large measure of confidence among the nations of the world. The influence of the League of Nations is the most powerful factor in international affairs today.

Beneficial and effective in so many ways as the work of the League has proven to be, its recent achievement in drafting a protocol of peace which received the unanimous approval of the representatives of every nation now a member of the League, and the equally unanimous approval given by such representatives to the plan for a great world conference on disarmament, and their united demand upon all Governments to proceed with the least possible delay in giving individual Parliamentary approval to the peace protocol, is easily the most important and far-reaching effort of the League and one that holds promise of heralding a new era in world history.

The effect of the concord displayed at Geneva is seen in the speeches delivered by two Generals who were active participants in the Great War, one a German, the other a Frenchman. General Verlaux (French) and General Von Schoenaich (German) united in stating to the World Peace Congress at Berlin that "only complete general disarmament can save the world." General Verlaux declared that "little armies are as dangerous as big ones," and General Von Schoenaich said that most generals of the old regime knew that their theories were wrong, but had not the courage to confess it. He promised to support the movement looking to the abandonment of military service.

The war to end war is, therefore, moving forward to victory. This really glorious war is not yet won. To achieve complete victory calls for the enlistment of every right-thinking man and woman to bring the last ounce of pressure to bear on Government in each and every country in order that strong national support for the League of Nations plan for universal disarmament will be forthcoming.

Canada's Envious Position

"I confidently predict that the next ten years will be the most prosperous in Canada's history," declared the Hon. P. C. Larkin, High Commissioner for Canada in London. "Without doubt Canada is in a far better position today than any other country in the world."

Road Reserved For Motors

King Victor Emmanuel, of Italy, opened what is believed to be the first road in the world built and reserved exclusively for automobile traffic. The road extends for thirty miles from Milan to the Lake of Varese and is to be continued later to Lakes Maggiore and Como.

Children Cry for

Fletcher's CASTORIA

MOTHER:—Fletcher's Castoria is especially prepared to relieve Infants in arms and Children all ages of Constipation, Flatulency, Wind Colic and Diarrhea; allaying Feverishness arising therefrom, and, by regulating the Stomach and Bowels, aids the assimilation of Food; giving natural sleep.

To avoid imitations, always look for the signature of *Charles H. Fletcher*. Absolutely Harmless—No Opiates. Physicians everywhere recommend it.

Hope For Cancer Cure

Toronto May Achieve Another Triumph in a Curative Treatment

Sir David Ferrier, a well known practicing physician, formerly consulting physician to King's College Hospital, and to the National Hospital for the Paralyzed and Epileptic, in an address to the Hospital Medical School, London, on the problem of a cure for cancer, referred to Dr. F. G. Banting's discovery of the insulin treatment for diabetes and said that hopes had been raised that Toronto would achieve another magnificent triumph in the discovery of a curative cancer treatment. However, British hopes, in the latter regard, have not yet been fulfilled.

The medical profession need not despair, Sir David said, about a cancer cure being discovered, for some time, but the members of the profession should not be over-sanguine concerning investigations now being carried on in connection with a possible cure.

Sir Humphrey Rolleston, president of the Royal College of Physicians, of London, urged that there should be one physician to every 1,000 people. He regretted that the entrants to the medical profession had fallen off considerably of late. This was especially the case with regard to women entering the profession.

Take Your Corns Off In Hot Foot Bath

The hot water removal of corns is the surest, quickest way. It takes only a minute to apply a covering of Putnam's Corn Extractor, and it soon frizzles the corn or callous so that a hot foot bath shells them right off. Get Putnam's Corn Extractor; it's a wonderful antiseptic corn softener. It costs little and is absolutely sure to give you the desired results for corns, thickened foot lumps or sore callouses.

PUTNAM'S Corn Extractor

Port of Vancouver

Six hundred and eighty-seven deep sea vessels sailed out of Vancouver during the first eight months of the present year.

WORK WORN PEOPLE

Find Renewed Health By Improving Their Blood

If you feel run down, it means that your blood is thin and watery, that your vitality is low. Your feet are easily chilled. You do not sleep well and you are tired when you rise in the morning. You find no pleasure in your meals and are listless and dispirited at your work. You have no energy to enjoy yourself.

Thousands of men are run-down by anxieties of work. Thousands of women are broken down by their household toil, with tired limbs and aching backs; thousands of girls are pale, listless and without attraction. It all means the same thing—thin and watery blood, vitality run-down, anaemia, poor appetite, palpitating heart, short breath.

Do not submit to this. Get new blood and with it new vitality. There is no difficulty in doing this—Dr. Williams' Pink Pills build up and enrich the blood, which brings with it new health and vitality. The man, woman or girl who takes Dr. Williams' Pink Pills is never run-down. Their friends notice how energetic they are, what a fine appetite they have, and how much they enjoy life.

You can get these pills through any dealer in medicine, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

The Supreme In Cheese

Canadian Product Has Attained a High Degree of Popularity

"Cheese—And Ways to Serve It," is the title of a beautifully illustrated booklet which contains nearly a hundred tested recipes for tempting cheese dishes. This book can be obtained absolutely free by writing to the Kraft-MacLaren Cheese Co., Limited, Montreal. Cut out the coupon appearing in advertisement inserted elsewhere in this issue, write your name and address plainly, and the booklet will be mailed to you at once. Cheese is nature's complete food in its most tempting form. Kraft cheese is an appetizing, satisfying and most nourishing food, and can be served in scores of tempting dishes.

Not Worth the Risk

"I know that I am not good enough for you," he told her. "I don't intend to give you a chance to prove it," she replied.

Scientists Make Strange Discovery

Expedition Into Olympic Mountains Find Worms That Live In Ice

A species of worm that lives only in ice and cannot withstand even the heat of a human hand, has been found, and photographed by a scientific expedition that recently went into the Olympic mountains.

The ice on Dodwell-Rixon Pass in the Olympics was found literally alive with these worms. They are black, thin and about half an inch long. When the sun is out they crawl into the interior of the ice where the temperature is lower. Scientists with the party said that so far as they knew these worms never had been found before in the United States.

While the worms were photographed, it was impossible to get any of them out of the mountains alive. When the ice surrounding them begins to melt, they die immediately. What they live on is still a mystery.

Good-bye Asthma. Persons suffering from that extremely trying trouble known as asthma know what it is to long with all their hearts for escape as from a tyrant. Never do they know when an attack may come and they know that to struggle unaided is vain. With Dr. J. D. Kellogg's Asthma Remedy at hand, however, they can say good-bye to their enemy and enjoy life again. It helps at once.

Okanagan Fruit

The total number of cars of fruit and vegetables shipped out of the Okanagan Valley during the period June 1st to August 31st, was 792, as against 536 during the same period a year ago.

The Oil for the Farmer.—A bottle of Dr. Thomas' Electric Oil in the farm house will save many a journey for the doctor. It is not only good for the children when taken with colds and croup, and for the mature who suffer from pains and aches, but there are directions for its use on sick cattle. There should always be a bottle of it in the house.

Images Date Back To 500 B.C.

In Ireland they find more of the mysterious porcelain images of apes which have been dug up over there, 50 found since year 1780, in widely scattered places.

Chinese scholars claim these porcelain images are of Chinese origin, including their peculiar hieroglyphics, and date back to the year 500 B.C. How did they get to Ireland? Did Chinese explorers travel that far. The ancient history of China, as it comes to light, will be fascinating.

Woman's Rights In Japan

Advocates of women's rights in Japan are advancing, as proof of the women's increasing interest in political affairs, the fact that of 11,000 persons who occupied seats in the visitors' galleries of the two houses in the Diet during its extraordinary session, in August, 4,000 were women. No previous session of the Diet has had so many women visitors.

Was Troubled With Her Heart and Nerves For Years

Mrs. James Rutledge, Nappan Station, N. S., writes:—"I think it my duty to tell you about what Milburn's Heart and Nerve Pills have done for me."

For years I was troubled with my heart and nerves, and was so bad, at times, I would faint away and fall right down where I was sitting or standing, and after one of these attacks I would sometimes be in bed for weeks at a time and feeling that life was not worth living.

I finally started the use of

MILBURN'S HEART AND NERVE PILLS

and after using the first box I saw I was getting relief, and after using them for a short time I found that they did for me what no other remedy had ever done."

Milburn's H. & N. Pills are for sale at all druggists and dealers; put up only by The T. Milburn Co., Limited, Toronto, Ont.

German Car Worries Pedestrians

Automobile manufacturers in Germany have great affection for freak designs in cars. One of the latest monstrosities to appear on the streets of Berlin is a car with the engine in the rear, and so constructed that the front end of the car bears the appearance of the rear end of an ordinary car. The vehicle appears to be running the wrong end first.

Rheumatism

Apply Minard's to the aching spot and get quick relief. The remedy your grandmother used.

MINARD'S "KING OF PAIN" LINIMENT

Children love it

—and it is so mild, so digestible that you can serve it in scores of tempting nourishing dishes good for little folks.

Dr. Grulee, noted food specialist, says that good cheese may be given to a baby of a year and a half. Kraft Cheese contains the vitamins that produce health and growth.

BRITAIN'S LABOR GOVERNMENT IS NEARING FINISH

London.—Great Britain's first Labor Government virtually came to an end when, by a combination of Conservative and Liberal votes, the House of Commons carried a motion demanding that a select committee of the House investigate the action of the Attorney-General, Sir Patrick Hastings, in withdrawing prosecution in the case of the Communist, James R. Campbell, acting editor of the Workers' Weekly, charged with inciting His Majesty's forces to sedition.

The Government declined to accept the motion, and treated it as a vote of censure, which, if adopted by the House, would involve an appeal to the country against Parliament's verdict.

The debate was sharp and exciting, and after it was closed the opposition wanted to drop Sir Robert Horne's motion of censure and vote on Sir John A. Simon's amendment calling for an investigation. On the Government's refusal to accept the course, the House divided on the question as to which it should vote on. By a vote of 359 to 198, it decided to vote on the Simon amendment. This was equivalent to the defeat of the censure motion, and the Simon amendment became the substantive motion, and was carried, 364 to 198. Announcement of the figures was received with loud cheering and counter-cheering. The Prime Minister, Ramsay MacDonald, immediately arose and said: "In view of what has happened, Mr. Speaker, I move that the House now adjourn."

Agreement Not Possible

British Government Cannot Grant Demands Made By Egypt

London.—A letter written by Premier MacDonald, declaring that the attitude adopted by Said Zagloul Pasha, the Egyptian Premier, has rendered impossible for the moment an agreement between the British and Egyptian Governments on the questions left for eventual settlement, when the British protectorate was withdrawn in 1922, has been issued by the Foreign Office in the form of a white paper.

The letter is addressed to the British High Commissioner for Egypt and the Sudan. It says that pending some future agreement between the two countries, the duty of preserving order in the Sudan rests upon His Majesty's Government. "And," the premier adds, "they will take every step necessary for this purpose."

Said Zagloul Pasha makes five demands for modifications in Egyptian status quo namely, withdrawal of all the British forces from Egyptian territory; withdrawal of the financial and judicial advisors; disappearance of all British control over the Egyptian Government, notably in connection with foreign relations; abandonment by the British Government of their claim to protect foreigners and minorities in Egypt, and abandonment by the British of their claim to share, in any way, in protecting the Suez Canal.

Fred Weiers, a Humboldt district farmer, has threshed a field of wheat which yielded 15 bushels to the acre and weighed 65 pounds to the bushel.

Keep The Hair Live And Glossy With Cuticura

On retiring, gently rub spots of dandruff and itching with Cuticura Ointment. Next morning shampoo with a suds of Cuticura Soap and hot water. This treatment does much to keep the scalp clean and healthy and promote hair growth.

W. N. U. 1546

Says British Race Is Not Decadent

Toronto.—Refuting statements that the British race was decadent, Rt. Hon. H. A. L. Fisher, former British Minister of Education, in an address here, made prophecies of a civilization in Canada distinct from that of the United States or England but embodying all the best elements of the latter. Mr. Fisher said he thought that the political system of Canada, derived from Great Britain's, had advantages over that of the United States and stated that the legal system of the British was a matter of pride.

Settle War Claims

Adjustment Made Between Canada and Germany Over Claims Covering Large Amounts

Ottawa.—All of the smaller outstanding claims of Canada against Germany, and of Germany against Canada, have been adjusted as a result of negotiations carried on at Berlin by Thomas Mulvey, Under-Secretary of State, who latterly has been assisted by Hon. Raoul Dandurand. The Government here has approved the settlement arrived at. The amounts involved aggregate nearly a million dollars.

The adjustment reached is in the nature of a saw-off. The Canadian Department of States will take care of the Canadian claimants against Germany, utilizing for the purpose certain funds now in the hands of the custodian of alien enemy properties, while Germany will attend to similar claimants in her territory.

By the settlement arrived at, all smaller claims have been wiped off the books. They are mostly commercial accounts. Only the larger ones remain. The total claims are 1,281. Germany admits 211, and withdraws 1,018. Canadian claims against Germany in the category dealt with have been reduced to five. Rapid progress is being made in the adjustment of the whole situation. The cases which Mr. Mulvey is dealing with are quite distinct from those in which reparations are sought from Germany by reason of illegitimate methods of warfare. These have been the subject of investigation by the commissioner, Hon. William Pugsley, who has just concluded a number of hearings in the Maritime Provinces.

German Loan Practically Assured

Successful Flotation Is Now Viewed As a Certainty

Berlin.—British, United States and continental participation in the \$200,000,000 Dawes plan loan to Germany, to an extent which will definitely insure its successful flotation, is now viewed as a certainty in German official circles where the progress of the London negotiations has stimulated a pronounced feeling of optimism. Chancellor Marx says the common people see in the loan a means of stabilizing Germany's finances, while its failure on the other hand would be bound to have a far-reaching effect on the entire situation, and might even mean the collapse of the Dawes plan.

Japan Reserves Decision

Tokyo.—Japan will not decide its attitude toward the protocol of arbitration and security voted by the League of Nations at Geneva till after the November presidential elections in the U.S. and the British political situation is settled, Baron Shidehara, Foreign Minister, told the Privy Council.

The outcome of the political situation in the United States and Great Britain will be leading factors in the Japanese decision, it was declared.

General Booth Arrives

New York.—General Bramwell Booth, head of the Salvation Army, with headquarters in London, arrived on the Homerle on his way to Canada, where he will conduct the annual congresses in Toronto and Winnipeg. He said he had a heavy programme before him, as he will conduct 36 meetings.

Imperial Conference Postponed

London.—The proposed Imperial conference in London this fall is now definitely postponed, no matter what happens in connection with the British political situation, the Canadian Press learns authoritatively.

Wins Scholarship

GABRIEL A. CUSSON,

winner of the Province of Quebec Scholarship for Music, known as the "Paris Prize," which entitles him to three years study in Paris, photographed aboard the Canadian Pacific S.S. Minnedosa, bound for Europe. The award of the scholarship to Mr. Cusson was not considered extraordinary by those who know his command of the piano, but it is remarkable that one who has been blind since birth should have qualified for the distinction. Mr. Cusson travelled alone under the care of the Canadian Pacific officials, and has taken residence with the Institute National for the Blind, where he will stay during his studies in Paris.

Air Defence For Australia

Many Applications to Join Citizens' Unit Are Expected

London.—The London Daily Telegraph Sydney correspondent cables that Wing Commander Goble, chief of the Australian air staff, in giving evidence before the Federal Public Works Committee on the proposed air force station at Richmond, New South Wales, said Sydney was one of the most important and strategic centres in the Commonwealth and that steps should be taken without delay for its defence. The proposed plan of air defence is spread over seven years, and provides for the formation of air units as the permanent nucleus of one-third the total strength, the two-thirds being drawn from citizen forces.

It is expected there will be many applications to join the citizen air force.

Souvenir Hunters Enter Peace Palace

Presidential Hammer Has Been Stolen From Council Table

The Hague.—Even the hallowed precincts of Andrew Carnegie's Peace Palace are not safe from the depredations of souvenir hunters, it seems, for it has become known that the presidential hammer has been stolen from the council table of the permanent court of international justice.

The hammer is artistically carved of ebony and about 12 inches long. It was presented to the court by the senate of Leyden University in 1922.

It has been missing since August 26, and information leading to its recovery is requested by The Hague Chief of Police.

Western Horses For Russia

Winnipeg.—Shipment of 1,000 horses, purchased in Western Canada for the Soviet Government of Russia, probably will commence in two weeks' time, according to Edward Kealey, of Kealey Springs, Sask., during an interview here.

Postpone Round Table Empire Conference

Ottawa.—Postponement of the round table conference, as announced in London, had been expected in official circles here. The present month was tentatively suggested for the holding of the conference, but there were difficulties in the way, especially so far as the more distant Dominions were concerned. Furthermore, with the present crisis in the domestic politics of Great Britain, it was thought unlikely the MacDonald Government would care to proceed with the conference.

Mr. Beatty Favors Exhibition Train

President of Canadian Pacific Agrees On Necessity For British Publicity

Commenting on the interview with M. Laurey, Director of the College Des Hautes Etudes Commerciales, published in The Gazette, regarding the proposed operation throughout the British Isles of a Canadian motor train similar to that operated in France by the Canadian Government and railways last year, Mr. E. W. Beatty, K.C., President of the Canadian Pacific Railway, expressed sympathy with the project, and stated that if the Canadian Pacific was approached by the Government to co-operate in such a scheme, he would be willing to recommend it and assist it to a reasonable extent.

"We all appreciate, I think," said Mr. Beatty, "that anything that can be done to stimulate the right class of immigrants from Great Britain, will be a step in the right direction. British immigration, while showing an improvement over last year, is yet disappointing, and while the Government, the Canadian Pacific and the Canadian National have been, and are doing what it is possible to do, yet I am fully aware that there are many districts, especially in the northern portions of Scotland and Ireland, where little is known about the opportunities for agriculturists in this country. On a small scale, with one exhibition van, we have been covering parts of England for years, but so thickly are the towns and villages located, and so great the population that it has been manifestly impossible to reach other than a small portion of the people."

"The British Empire Exposition which closes this month at Wembley, has brought Canada prominently before all those who had the good fortune to attend it as well as to many through the medium of the daily and weekly press, but only a very small proportion of the population—that is the class of people whom we desire to interest—either visited the exposition or were reached through the British press."

"I do not favor the operation of a full train of 30 motor vans, as was done in France, but rather the operation of eight to ten exhibition vans displaying Canada's natural resources and agricultural products as well as an apparatus to enable a daily projection of motor picture films in the open air. Our exhibits at Wembley Exposition were productive of general publicity, but the operation of a motor train as suggested, would bring Canada in direct touch with millions of people. In the towns and villages of France, I understand, everybody turned out; it was a free exhibition and entertainment and naturally drew the public. During the past summer, our own exhibition van covered nearly 2,500 miles in Southern, Central and Northern England, visited 134 cities, towns and villages, and attended 19 agricultural shows. It began to operate early in May, and continued until the end of August."

"What we have been able to do with good results, on a small scale," concluded Mr. Beatty, "should be productive of greater results on a large scale, and, in the modified form I have suggested, I am inclined to favor the project."

Treaty To Be Proclaimed

Ottawa.—Canada's trade treaty with Australia will come into effect by proclamation on a date to be decided by the two Governments. Further details available show that the chief concessions obtained by Canada in the Australian market are on canned fish, paper and chassis. On canned fish Canada gets the British preferential rate of a penny per pound, as against an intermediate tariff of 1½d. and a general tariff of 2½d.

LOW GRADING OF WHEAT CAUSE FOR COMPLAINT

Regina.—A request for an immediate investigation of the whole question of grading wheat was referred to the Board of Grain Commissioners at Fort William by the Saskatchewan Wheat Pool.

The telegram sent to the Board of Grain Commissioners from the meeting of the Wheat Pool directors reads as follows: "In view of extreme dissatisfaction and large number of complaints being made by farmers regarding grading of wheat by inspection department, Board of Directors of the Saskatchewan Wheat Pool recommend that an immediate investigation into the whole matter of grading should be made without delay."

The question of grading was discussed at an informal conference between directors of the pool, the Central Board of the Saskatchewan Grain Growers' Association and representatives of the Farmers' Union of Canada. Donald MacIac, general manager of the pool, spoke on various phases of grading and a general discussion followed, the meeting lasting over two hours.

Calgary.—Protesting that the standard by which wheat has been graded has been arbitrarily raised to a higher level than last year, although the Grain Standards Board itself has not yet met, and that, in consequence, the producers are suffering a very heavy loss, more than 100 farmers of the Cayley district, south of here, have made an urgent request to Hon. T. A. Low, Minister of Trade and Commerce, and to the Board of Grain Commissioners, to give the matter their immediate attention.

Aerial Mail For East

Daily Service Established Between Halleybury, Ont., and Quebec Points

Ottawa.—A daily mail service by airplane has been established between Halleybury, Ont., and Angliers, Que., and the Royon Gold Fields, according to an announcement in the October supplement of the official Postal Guide. The service is being maintained by the Laurentide Air Service, Limited, and senders of mail assume all risk.

The requirements for this mail are:

1. "By aerial mail," must be written prominently on the address side.
2. The usual Canadian postage must be affixed.
3. A special aerial sticker sold by the company or its agents, representing a charge of 25 cents, must be placed on the reverse side of mail matter in payment of the special charges for transmission by air.

May Appoint Dr. Tory

Ottawa.—Dr. H. M. Tory, President of Alberta University, is expected to be the permanent head of the Research Council of Canada when the re-organization now under way is completed. At the last session of Parliament, legislation was passed to put the council on a more independent basis, and to enable it to work out gradually a system of investigation such as is being carried on by the American Bureau of Standards.

Population Of Edmonton

Edmonton.—Completion of the city census showing that Edmonton's population has increased to 63,160, which probably places the capital city in the lead in Alberta. In the Dominion census of 1921, the city's population was placed at 58,821.

The Liver Is the Road to Health

If the liver is right the whole system is better off. Carter's Little Liver Pills awaken your sluggish, clogged-up liver and relieve constipation, stomach trouble, inactive bowels, loss of appetite, sick headache and dizziness. Purely vegetable. You need them. Small Pills—Small Dose—Small Price.

How About Your Autograph Christmas Cards?

We have a very choice selection of Autograph Christmas Greeting Cards boxed in lots of ten and no two alike. Each card has its own envelope. Secure yours before they go, won't last long at

\$1.25 per box.

Our line of Christmas Greeting Cards this year is better than ever. These cards will be printed with your own name and address and the prices are very reasonable considering the quality of goods. See them before you buy elsewhere.

The Didsbury Pioneer

SCHOOL OF AGRICULTURE OLDS ALBERTA

Free Courses in Practical Agriculture and Domestic Science.

Term opens Oct. 25th, closes March 27th.

Minimum age 16

No entrance requirements.

Board and room for men available at \$2.00 per week. Board and room for women provided in modern Government Dormitories, \$23.00 per month.

For the first time the O. S. A. is offering a third year which is a matriculation course. The course is also free, it is for the graduates of the Agricultural Schools. It opens Oct. 20th and closes the end of April.

Government pays the Railway fares to and from Olds for students from Vermilion and Youngstown Agricultural School Districts.

For further particulars apply to

DEPT. of AGRICULTURE,
Edmonton, Alta.

PRINCIPAL of O. S. A.

NOT MUCH OVER US

According to the surveyor general, Olds is not the highest point on the C. and E. line, as is generally surmised by the citizens. With the exception of Airdrie, Crossfield and Carstairs, the journey from Calgary to Edmonton is on the downgrade. The following are the altitudes of the C. P. R. stations from Calgary to Innisfail and Edmonton: Airdrie 3,552 Crossfield 3,632, Carstairs 3,475, Didsbury 3,411, Olds 3,413, Bowden 3,244, Innisfail 3,099, Edmonton 2,183.—*Olds Gazette.*

Here and There

Up to the end of May, 1924, over 779,000,000 fry of different kinds were distributed throughout Canada from the fish hatcheries operated by the Department of Marine and Fisheries, a recent despatch from Ottawa declares.

A surplus of \$363,011 is shown in the annual report of the Vancouver Board of Harbor Commissioners for the year 1923. Receipts totalled \$725,880. There was an increase of \$4,813,797 in the value of all exports and imports. The actual value of all freights was \$40,693,924.

Among the passengers sailing for England on the Canadian Pacific steamship "Marloch" July 3rd from Montreal was a large party of teachers, who will join the tour of the Overseas Educational League, which this year is covering Great Britain, France and Belgium.

A set of 12 beautiful colored pictorial menu cards illustrative of the history and romance of Canada has just been placed in service by the Canadian Pacific Railway on its crack transcontinental expresses, the Trans-Canada Limited and the Mountaineer. Especially interesting are four reproducing authentic photographs of prairie Indians, accompanied by descriptive text.

The newsprint production in May this year both for Canadian and United States mills was greater than the previous months. Canadian mills made a new high record, the total for the month being 117,833 tons, compared with a previous high figure of 115,572 tons and their production for the first five months of the year exceeded that of 1923 by 50,087 tons or approximately 11 per cent.

"Canada is the country for the Scotsman and I am going to bring every opportunity that Canada can offer, especially in farming, before my compatriots," declared the Rev. William Dunlop, M.A., F.S.A., of Buckhaven, Fifeshire, when in Montreal recently, on a tour of the Dominion investigating its agricultural possibilities. "But you are sadly in need of more people and we can supply them."

Through the generosity of the British Museum, the Fine Arts School of the City of Quebec has been enriched by the donation of a precious collection of books on arts, which contain over 3,000 reproductions of masterpieces. Among historic schools represented are the English of the 14th Century, the Italian of the 16th Century, the German of the 15th Century and the French and Danish of the 18th and 17th Centuries respectively.

For the 12 months ending May 31, Canada had a favorable trade balance of nearly \$200,000,000. Exports during that period totalled \$1,069,715,880 and imports \$873,207,752 in value. This represents an increase in value over the exports of 1923 of \$110,000,000 and of \$32,000,000 over the imports of that year. The chief increases in exports were noted in agriculture, wood and paper.

The first residence of the Jesuit Fathers at Sillery, which was built in 1639, has been presented to the Province of Quebec by the sons of the late Hon. R. R. Dobell, a minister in the Laurier cabinet of 1896. This house, which stands at the foot of the path outside the City of Quebec up which Wolfe's army climbed to the Plains of Abraham, is the oldest in Canada and the second oldest in North America, the oldest being situated in Florida.

Something new in the way of "stunts" was staged at Montreal on July 4th by the publicity association of that city, as a send-off to Canadian and United States delegates going to the annual convention of the Associated Advertising Clubs of the World, which opened on July 12 at London, England. The 250 men of the party rolled a huge ball made of wood and canvas through the principal streets from a local hotel to the docks occupied by the Canadian Pacific steamship "Montcalm," upon which they subsequently sailed.

AUCTION SALE

Under instructions from Mr. J. Boorman I will sell by public auction on the lots opposite Dr. Clarke's residence, on

SATURDAY, OCTOBER 18th,

The following household effects without reserve.

KITCHEN

Fireco range, nearly new; Hoosier kitchen cabinet; Kitchen chair and rocker; Baby's high chair; Kettles; Sauce pans; Tub and boiler; Kitchen utensils; Refrigerator; Majestic stove, 4 hole; Wash tub; Kitchen table; 100 Sealers; Wash board; 2 Kitchen chairs; Complete kitchen utensils.

DINING ROOM

Heavy dining table quarter cut; Singer Sewing machine; Heavy oak arm chair; House plants; Dining room table; White enamel bed; Solid oak quarter cut buffet; 6 Heavy solid oak dining chairs; Heavy oak rocker; Practically new Milton rug 9x9; Continuous post iron bedstead; Spring coil and mattress complete; Sunbeam 13 and 17 heaters, lots of pipe; Coil spring; Simmons mattress; Large chest of drawers.

Terms cash.

J. Boorman, Owner.

W. G. Liesemer, Clerk.

J. W. Phillipson, Auctioneer.

Wanted, For Sale Ads.

ESTRAY:—On the farm of W. A. Ahlgren, black mare, right hind foot white, no visible brand, 7 or 8 years old. Owner may have same by paying for ad. tfe39

FOUND:—Several found articles have been left at this office among which are:

Pair glasses in case.

Wagon end rod.

Child's red and white touque.

Owners may have same on application and payment of advertising. Pioneer Office. tfe42

LUMBER FOR SALE

No. 2 Sheeting in 12 and 14 ft. at \$20 per thousand; 2x8 Plank in 12, 14 and 16 ft. at \$23 per thousand; 2x6 in 12 ft and 2x4 in 10 and 12 ft at \$23 per thousand. Lumber is at Westerdale. Wm. Wigley. 2c40

LITTLE—RUBY

A quiet but pretty wedding took place at the home of Mr. and Mrs. J. A. Ruby on Sunday, October 13th when their daughter Edna Mae was united in marriage to Robert Langton Little of Calgary.

The bride looked charming in a dainty gown of orchid georgette carrying a large bouquet of Ophelia roses, entering the room to the strains of Lohengrins wedding march played by Miss Emma Hehn.

The ceremony was performed by

the Rev. W. J. McNutt under an arch of autumn leaves and evergreen. During the signing of the register Miss Vera Hehn rendered "Because" very sweetly accompanied by her sister Miss Emma Hehn.

After the ceremony a wedding breakfast was served at a table centred with the bride's cake surrounded by Rosebuds in a bed of pale pink tulle.

The happy couple left on the noon train for Revelstoke and points west. The bride travelled in a suit of navy blue tricot with hat to match, wearing a brown fox fur, the gift of the groom.

The invited guests were Mr. and Mrs. J. A. Ruby, Mr. and Mrs. A. C. Ruby, Mr. and Mrs. C. E. Ruby, Mr. and Mrs. L. S. Ruby, Glasgow, Scotland, Mr. and Mrs. Roland Jones, Mr. and Mrs. R. A. Little, Oshawa, Ont., Miss Jean Little, Vancouver, B. C., Miss Jean Burns, Miss Muriel Gamble, Miss Stella Devolin, Miss Pearl Ruby, Misses Vera and Emma Hehn, Messrs. Earl Ruby, Ward Keith, Samuel Clues, Clix Dawson, Cecil Cobb, Roy Cullen, Dave Mouat, Eric Leadbetter.

After October 15th Mr. and Mrs. Little will be at home at 1711 13th St. West, Calgary.

NEW GRAIN SHIPPED OUT

Approximately ten million bushels of new grain have been shipped out of Alberta since September 1, according to figures of the railway companies. The greater bulk of this has been wheat, a considerable share of it going to the world's markets over the new western route via Vancouver.

STUDIES ALBERTA SYSTEM

Geo. H. Webster, chief of the dairy division of the state of Montana, visited Alberta this week, investigating the system of government cream grading that has been in operation for the past two years in this Province, and which has been responsible for the great increase in quality of creamery butter. Mr. Webster states that several of the western States are lining up to pass similar regulations, having become greatly interested in the benefits obtained in Alberta.

C. N. R. EDMONTON IMPROVEMENTS

Citizens of Edmonton this week endorsed by-laws ratifying an agreement with the Canadian National Railway calling for expenditures in station and subway improvements, which are expected eventually to total three millions of dollars.

BRITISH BOYS READY TO BEGIN COURSES

The first party of British boys to come to Alberta, under the new arrangement between the overseas settlement board and the Alberta Department of Agriculture, is sailing on October 17th. These boys will be given a special winter's course in practical agriculture at the school of agriculture at Vermilion. There are about fifty in the party, and they are between the ages of 18 and 25.

LINING THE CONNAUGHT TUNNEL

Upper left.—In spite of heavy snowfalls and below zero weather, the work of lining the Connaught Tunnel is continued throughout the winter months. The snow-capped heights of Mount Abbott and Ross Peak stand as western sentinels of the little town.

Upper right.—Glacier, B.C., showing Mount Macdonald, 9,182 feet, through which the five mile Connaught Tunnel passes. Eagle Peak, 9,353, is in the centre of the picture and Mount Sir Donald, one of the most beautiful peaks in the Canadian Rockies, with an altitude of 10,808 feet, is on the extreme right.

Lower left.—The resident engineer's bungalow nestles among giant evergreens on the banks of the Illecillewaet River.

Lower right.—Western Portal of the Connaught Tunnel, showing the fan house and the two huge 14 ft. steel fans which ventilate the "big hole."

High up on the crest of the lofty Selkirk with half a dozen of the finest mountain peaks in the world hunching their snow-clad shoulders about its rows of trim brown houses, lies the picturesque town of Glacier on the main line of the Canadian Pacific Railway through British Columbia. Three and a half miles distant from this little construction centre, which has virtually been called into being through the lining of the Connaught Tunnel, hangs the great Illecillewaet Glacier on the slopes of Mount Macdonald and two miles nearer nestles Glacier House, the annual mecca of thousands of summer tourists.

Few of the surrounding peaks at Glacier are less than 9,000 feet in altitude. The famous Cheops, Mount Sir Donald, Ross, Eagle and Abbott Peaks encircle the little settlement. In winter time a blanket of snow enfolds town and mountains alike. In spring the brilliant yellow slide lilies follow the ever-receding snow-line as it climbs higher and higher up the mountain sides. Life is enlivened in the summer time by the crowds of guests who throng Glacier House and transforms the scene again with generous splashes of orange, crimson and russet.

Common interest in the great engineering project under way has brought about a very definite community spirit at Glacier. For almost every youngster's daddy works in the big tunnel in one or other of the various branches of work which the lining demands, and every household is regulated by a schedule of working hours which begin at 5 a.m. and end at 1.15. Half a hundred children attend the little brown school house and various clubs for the grown-ups provide interests of a recreational and cultural nature.

Engineers, foremen, carpenters, machinists, drillers, electricians, laborers and train crews make up the wage earners among the 500 residents of Glacier. Single men live in a well ordered camp. Here, as in the little homes where the men with families live, all the conveniences of a modern city are enjoyed including electric lights and running water piped from a nearby mountain stream.

The lining of this five mile tunnel, the longest on the American continent, with a steel reinforced concrete jacket represents one of the most interesting engineering projects now under way anywhere in the world.

Beneath 6,000 feet of mountain the Connaught Tunnel cuts under Mount Macdonald between the stations of Connaught and Glacier. With the opening of this underground short-cut in 1916 the Canadian Pacific Railway overcame the many difficulties which the old Rogers Pass route had presented. Track curvature to an amount corresponding to seven complete circles was eliminated; the summit attained by the Railway was reduced by 552 feet; the trackage was shortened by four and a half miles and more than four miles of snow sheds which had been necessary on the slopes of Mount Macdonald were dispensed with.

The lining of the "big hole" was begun in 1920 and when this work is completed the Connaught Tunnel will stand as one of the finest and most complete engineering jobs in the universe. Undertaken in the name of safety, the Connaught Tunnel has always been a "safety first" proposition. Throughout its construction days, during the eight years it has been in operation and the four years that it has already taken to line it, it has been singularly free from accident.

Nearly 500,000 sacks of Canadian cement will have gone into the lining of the Connaught Tunnel when it is finished. Practically all the machinery used in the work is Canadian made, including the huge compressors and powerful motors. The four types of reinforced steel collapsible forms, which are used in the various stages of the lining process, came from a western Canadian plant and the Sydney E. Jenkins Company, B.C., Limited, construction engineers are in charge of its lining.

The tunnel's concrete jacket is completed in sections 22 feet long, each section taking about four or five days to prepare, when it is sometimes necessary to do considerable blasting, one day to fill with concrete and three days in which to set. Six complete sets of forms are at work within the tunnel which means a completed section for every working day in the week, or a total of 132 feet in six days.

More than 100 powerful flood lamps illuminate the tunnel at these six working points. Owing to the remarkable ventilating system, which in itself is one of the most interesting and important features of the tunnel, working conditions are excellent. At the western portal two great steel fans, driven by two 500 h.p. four cylinder semi-Diesel engines, turn at the rate of 255 revolutions a minute driving a brisk breeze through the five-mile length of this great underground passage. The ventilation thus created makes it possible for trains to pass through the tunnel with practically no discomfort to passengers and for workmen to remain at their tasks for eight consecutive hours without detriment to health or vigor.

One comes upon many surprising things in the course of a walk through the great double-tracked tunnel. Grains of wheat fallen from the thousands of cars of Canada's 1923 bumper crop which have passed through on their way to the port of Vancouver have taken root for many yards within each portal and the tiny field mice ever in search of provender scamper across the tracks within the very heart of the tunnel. At two points in the tunnel wall doors lead through the solid quartzite rock to the pioneer bore and here in this miniature tunnel one finds two brilliantly illuminated and immaculate "white lunches." White capped chefs provide in these underground restaurants dispensing steaming bowls of soup and fragrant coffee to the small army of workers who are bringing to completion the lining of the Connaught Tunnel.

CHAPTER XVIII.
A Cryptic Messenger

From the Home Restaurant, the sergeant went to the stable where already he had made his horses comfortable. He secured a clothes poke from the pack of his outfit. The Bonanza Hotel proved advantageously informal in that he was asked "two dollars a night in advance." Instead of being confronted with a register for his name and address. A key, attached to a tin disk too large for any normal pocket, was tossed to him by the grouchy boniface, who informed him he would find No. 12 at the head of the stairs.

Opening a canvas door supported on a pair of leather hinges, Seymour entered a tiny room lighted by a single window. It was furnished to the minimum with a blanketed cot, a chair and a table of the roughest construction.

As he sat on the edge of the cot, he recalled the crowded events of the life that had been his in the few months since the strangulation of Oliver O'Malley. Up at Armistice post, by now, the first mail must have arrived. Constable La Marr would know that a "court" was about to start from Ottawa to give Olespe of the Lady Franklin band a trial for his life. He'd know, too, that Avie would not be tried just then because the case against him would be incomplete without the testimony of Harry Karmack, the fugitive factor who undoubtedly had robbed the Arctic Trading Company. And when would he find Karmack—when and where? And Moira O'Malley, when would she arrive in Gold to join her bereaved father until that capture time?

The events of the day, however, were too stressing for his practical mind to long concern itself with anything but the matter immediately at hand.

"Richer than gold!" The last words of the widow kept recurring to his thoughts. What could this presumptuous crook of the wilds have had in mind? The sergeant could think, of course, of commodities that were more precious than the yellow metal, but of none that were indigenous to that upper corner of British Columbia.

So he puzzled over the remark until he concluded that Bart must have used a figure of speech. He would await the widow's interpretation.

Seymour was not surprised to find that he did not think of Mrs. Caswell as a participant in Bart's outlawry. Without protestations of innocence or any oral plea that she had tried in vain to reform the daring rascal, she had

FULL OF ACHES
AND PAINS

Toronto Mother Found Relief
by Taking Lydia E. Pinkham's
Vegetable Compound

Toronto, Ontario.—"I have found Lydia E. Pinkham's Vegetable Compound a splendid medicine to take before and after confinement. A small book was put in my door one day advertising Lydia E. Pinkham's medicines, and as I did not feel at all well at the time I went and got a bottle of Vegetable Compound right away. I soon began to notice a difference in my general health. I was full of aches and pains at the time and thought I had every complaint going, but I can truthfully say your medicine certainly did me good. I can and will speak highly of it, and I know it will do other women good who are sick and ailing if they will only give it a fair trial. Lydia E. Pinkham's Liver Pills are splendid for constipation. You are welcome to use my letter if you think it will help any one."—Mrs. HARRY WESTWOOD, 543 Quebec Street, Toronto, Ontario.

The expectant mother is wise if she considers carefully this statement of Mrs. Westwood. It is but one of a great many, all telling the same story—beneficial results.

Lydia E. Pinkham's Vegetable Compound is especially adapted for use during this period. The experience of other women who have found this medicine a blessing is proof of its great merit. Why not try it now yourself?

W. N. U. 1546

acquitted herself of culpability. The weary lines in the face that must have been beautiful not so long ago, the haunted look in her dark eyes, even her superb first effort at denial had won the Mountie's sympathy.

A knock on the canvas door of his room interrupted his study of the local situation. Arising, he unhooked the latch, whereupon the improvised door swung inward of its own weight and the accord of its makeshift hinges.

Disclosed in the frame, filling it perpendicularly but sadly lacking in horizontal proportions, stood a gaunt, miner-clad figure, distinguished by a pair of deep-set eyes which burned like living coals and a shock of white hair which waved its freedom when his slouch hat was removed.

"Will you pardon me, stranger; no intrusion meant." The voice was soft and a smile of utmost benignity came into play. "In the midst of life, we are in death."

"The missionary—Moira O'Malley's father and the uncle of the morning's colorful trillmate!" was Seymour's instant thought; but he gave no sign of the presumed recognition.

"Safe enough statement in this camp to-day," he said to his visitor.

"I'm the sky-pilot of these diggings," the other announced in a pulpit voice that rumbled through the hall.

"Won't you come in, sir?" The missionary declined with a shake of his head. "I must hasten on my weekly rounds, distributing lessons from the Word. Won't you accept one of these and promise me to read it?" He held out a small tract taken from a handful which he carried.

The sergeant glanced at the title: "What Shall It Profit a Man—" He smiled tolerantly, thinking what a queer yet lovable character his future life's companion had for a parent.

"It is not meet that we should be seen in conference," O'Malley's voice had been lowered to a whisper; then suddenly it boomed so that all beneath the roof might hear: "I trust you will read that tract, brother—read and profit thereby." And with that, he stalked down the hall as though in search of other needy souls.

Seymour watched him. On getting no answer from the next door, the gaunt frame stooped to slip a tract under it. At another a woman answered his knock and a "sister" was informed that in the midst of life she was in death.

Back in his room, Seymour pondered the single whispered sentence with which the sky-pilot varied what evidently were his wonted words when distributing tracts. Had Moira written that he had started for Gold and that he knew more than anyone in the world about the family's Arctic tragedy?

But that was impossible, for he had been able to spend but a moment with the girl when orders came to him at Montreal to report at once to the assistant commissioner in command of "E" Division at Vancouver. Seymour himself had not known then that he would eventually arrive in plain clothes at her father's mission station. What, then, could the whisper mean unless there was a message—temporal rather than spiritual—for him hidden somewhere in the pamphlet?

But when he shook its leaves, no enclosure dropped out. He examined the margins without raising a sign. The inside back cover was blank but nothing had been written thereon. He remembered that the missionary had picked the tract seemingly at random from a pack of several dozen and he was discouraged.

Still, the whisper persisted. "It is not meet that we be seen in conference"—he recalled every significant word of it. Surely such words had not been spoken at random. Drawing the chair to the window, he sat down and began a more intensive study of the printed sheet. Soon, an ink dot beneath a letter rewarded him; then others. Presently he picked out a sequence of dotted letters spelling "P-a-r-d-o-n."

The process reminded him of reading sun-heliograph or taking a blinker message at night. Undoubtedly the communication was of importance that the girl should have gone to such trouble to assure secrecy. The uncle, too, must have shared the secret or he could not have been trusted to pick out the message-dotted tract. From his clothes poke, the sergeant took out a writing pad and with his pencil set the indicated letters into words, with this final result:

Pardon my vamous and cut Both for good our cause Bart said you coming to help Now must carry on alone Be careful Keep silent Come our cabin late tonight Green River at Glacier Ruth Duperow.

The message amazed him on more than one count. She had "left him cold" at the point of discovery and later on refused to recognize him on the streets of Gold for the good of "our cause." What cause? Unless that was her way of indicating law and order, he knew of no cause they had in common. Again, he was to "carry on alone." What did she expect him to carry on?

Of course, he meant to carry on until he had the man who would have kidnapped Moira O'Malley, except for the enactments of the snows. But why go back to Moira? This cousin was of a different type. Beautiful, to be sure, but not his sort of beauty—not the sort that thrilled and held him. He stopped ruminating with a jerk. Almost had he forgot—

Most puzzling of all was that "Bart said you were coming." Who did she think he was, anyway? That she had made a faulty surmise of some sort was evidenced by the fact that she still held the crook at his assumed sergency value.

As for the rest of the message,

A Public
Danger

Skin disease threatens us every day. Invisible germs of blood-poison, eczema, etc., are waiting to infect the least cut or sore place. The money you use carries germs—you get them on the handles, rails and straps of the trains and street cars, and in a score of other ways. Solely through Zam-buk, Mr. Henry C. Davis, of South 17th Street, Kansas City, U.S.A., has just escaped a virulent type of eczema, contracted, he suspects, through use of public towels.

"I had medical advice," he says, "tried in addition all sorts of so-called eczema remedies, without finding the hoped-for relief. Zam-buk treatment soon gave positive results. It took away the painful irritation and quickly purified and healed the deep troublesome sores."

nothing would please him better than to accept the strangely sent invitation to call. It would mean getting in touch with Moira quicker than he could hope to do if he continued his inconspicuous role in the camp.

Seymour turned his attention for some time, then, to an intensive study of the blue print map of the district which he had purchased at the surveyor's office on riding into Gold that morning. His hope was to find a way toward the creeks after nightfall without asking questions.

His morning course to the point where he had overtaken the boyish-looking rider was easily traced, and thence into town. Working back, he found the trail over which Ruth Duperow had come and followed that to the mouth of Glacier Creek. Evidently the girl, for some reason, had taken a roundabout course that morning, for he found that a more direct trail to town followed the Cheena. His acquaintance with the Indian tongue was sufficient to spare him the map-maker's mistake of adding the word river to a name that really included it in the "na" suffix.

From such detail as was drawn into the map, he judged that Glacier was not much of a creek. It appeared to start in a nest of glaciers and to flow through a canon as from the neck of a bottle. Between the Cheena and the canon was drawn a square with a legend, "Indian Mission." That no mining claims were marked off on this creek, although those surrounding it were well staked, seemed remarkable; but the stranger did not try to guess the answer.

For no other reason than that the name had lodged in his mind, Seymour sought out Hoodoo Creek on the map and found the claim accredited to Cato—Thirteen Above. If the long-armed ox-man cited it in advancing his hopes with the widow, Seymour hoped that the number would exert its supposedly baleful influence.

From the blue-print, he turned to writing a report to his chief in Vancouver to whom word of the murder of his "Staff-Sergeant Russell Seymour" had undoubtedly been sent without delay. He took a grim sort of enjoyment in an opening after Mark Twain:

"I have the honor to state my safe arrival in Gold, B. C. Any reports of my violent death that may reach you are slightly exaggerated."

In the terse English that has made mounted police reports models of modesty, he told how he had "run into" two murder mysteries in addition to the embezzlement case which had brought him from the Far North. One of these, with its accompanying stage robbery, he believed he had solved except for stray angles that did not affect the capital crime. He was at work on the second murder case, with fair progress.

Over his final paragraph, which was headed "Suggestions," according to the form followed by the Force in official communications, he pondered deeply. Whatever he wrote there, he had reason to believe, would be incorporated into an order soon after passing under Assistant Commissioner Baxter's eyes. On this particular independent command, he was anxious not to make mistakes. Finally he wrote:

"Am not prepared to pass judgment, at this time, on the permanency of Gold. From what I have seen, however, the district sadly needs Dominion policing. Would suggest that you send at your earliest convenience one (1) sergeant and two (2) constables, mounted and with suitable camp

equipment. As I may be working under cover on this second, unsolved murder, please instruct the sergeant to make camp on his own responsibility and act accordingly until he hears from me. Tell him to disregard reports of my demise as unfounded and

A strident "Come in!" evidently in answer to a knock he had not heard, sounded in the adjoining room and caused him to raise his pen from the paper with the sentence incomplete. "Hello Brewster, glad I found you in."

The shrilled greeting was in an unmistakable voice. Its wording informed Seymour that the agreeable freighter of his morning's acquaintance was his immediate hotel neighbor.

"What can I do for you, Hardley, you honorable strong arm of the law?" The voice was Brewster's—the same that had remarked the thinness of the tar-paper partitions. They were veritable sounding boards. Seymour could hear every word.

"Wanted to ask your advice, Phil, about some points in this Mountie's murder."

(To be continued)

Says "Plymouth Rock"

Came From Canada

Carried Down During Last Ice Age Is Scientific Belief

Plymouth Rock, so we learn from scientific investigation, is itself an immigrant. It was brought down from Canada during the last ice age on the bosom of a glacier and when the glacier melted, was deposited conveniently for the subsequent use of the Pilgrims. It is a boulder of "blotite granite with altered plagioclase feldspar," if that interests you. At the same scientific gathering where the history of Plymouth Rock was sketched. Dr. Knuz, of New York, referred to the diamonds that are occasionally found in the glacial drift in our central states. He believes that diamond mines of considerable value will be discovered in Northern Canada when the course of the old glaciers has been accurately traced.—Youth's Companion.

Have Altar In Salt Mine

Ruthenian Miners Draw Lots For Honor of Arranging Flower Decorations

A more unusual location for an altar than a huge salt mine could hardly be imagined, and yet such an altar is to be found in a quiet corner of a salt mine at Akna Statina, on the frontier of Ruthenia. The setting of the altar according to one who visited there, is one of strange beauty. Towering walls of glistening salt form the background. Morning and night, as the miners begin and finish the day's toil, the altar is thronged. Daily, fresh flowers are brought from the world above, and so great is considered the favor of arranging them that lots are drawn, the fortunate one retaining his office for a week.

LITTLE HELPS FOR
THIS WEEK

The Lord your God is gracious and merciful, and will not turn away His face from you.—2 Chron. xxx., 9.

O Thou our soul's chief hope! We to Thy mercy fly; Where'er we are, Thou canst protect, Whate'er we need supply.

—John Austin

Thou, God, art whatever Thou art in Thyself; for Thou art Thine own wisdom, Thine own goodness, Thine own power, and above all else art merciful! What art Thou but mercy and love? Thou canst not depart from Thine own nature. Deep calls to deep; the deep of misery calls to the deep of misery. Have mercy upon me! not according to the mercy of God, which is great, which is infinite.

—Savonarola.

He.—Women are seldom capable of reasoning. She.—Don't you believe it. He.—Why not? She.—Well—because.

Illuminated Castle

Castle Hall Lighted By Eight Thousand Candles

Mirror hall in the castle Herrenchiemsee, in Bavaria, recently was illuminated by its 8,500 candles for the second time since the castle was built. The occasion was a gathering of Bavaria's first citizens, including members of the former royal family, invited by the Government.

The first complete illumination of mirror hall and its adjacent rooms was in 1886, ordered by Prince Regent Luitpold to honor the Shah of Persia, then visiting the Bavarian court.

SAVED BABY'S LIFE

Mrs. Alfred Tranchemontagne, St. Michel des Saints, Que., writes:—"Baby's Own Tablets are an excellent medicine. They saved my baby's life and I can highly recommend them to all mothers." Mrs. Tranchemontagne's experience is that of thousands of other mothers who have tested the worth of Baby's Own Tablets. The Tablets are a sure and safe medicine for little ones and never fail to regulate the bowels and stomach, thus relieving all the minor ills from which children suffer. They are sold by medicine dealers or by mail at 25 cts. a box from The Dr. Williams Medicine Co., Brockville, Ont.

What Farmers Buy

The head of one of the large agricultural implement manufacturing companies recently announced that while the farmers paid out \$275,000,000 for machinery the last season, they also spent \$625,000,000 for automobiles.—Baker's Weekly.

Beecham's Pills

WORLD HAPPENINGS BRIEFLY TOLD

Eighty-four thousand lives were lost in the United States last year as the result of accidents. The death toll amounted to 1,462 per week, or 269 a day.

The net debt of Canada dropped \$2,110,786 during September and now stands at \$85,406,851. In September, 1923, the debt showed a decrease of \$5,349,512.

Princess Mary's second child was christened in St. Mary's Church, Goldsborough, Eng., Oct. 4. The ceremony was in private, and the child was given the name of "Gerald David."

Work on the construction of the gigantic flour mills to be built in Calgary by Spillers' Overseas Interests, Limited, has already commenced. The new mill will be the second largest in Canada.

The liner Empress of Canada, which docked at Victoria, B.C., from the Orient, brought 166 Russian refugees from Harbin, who were going through to the irrigated area in Southern Alberta to engage in farming.

M. T. Tinline, for 10 years Superintendent of the Experimental Farm at Scott, Sask., has been appointed Superintendent of the Experimental Farm at Brandon, to succeed W. C. McKillop, newly-appointed Dean of the Manitoba Agricultural College.

Another Arctic expedition, this time all French and headed by Jules De Payer, is to start for the polar regions at the end of next March, according to Le Journal. The party will proceed in a specially equipped vessel to the Franz Joseph archipelago, whence an attempt will be made to fly across the North Pole.

A Feast Of Fashion

Fall and Winter Fashion Book Sent Free

Combining the arts of Paris, the world's centre of fashion, with the ingenuity of New York workmanship, there is shown and illustrated some beautiful creations in the new fall and winter fashion book issued by the Hallam Mail Order Corporation, Toronto. Every conceivable design is shown in fur coats, featuring exquisite linings and the new crush collar, as well as cloth coats in a wealth of smart fabrics and styles, with and without fur trimmings. Also dresses, millinery and sweaters, at most attractive prices. Drop a card today to the Hallam Mail Order Corporation, Ltd., 898 Hallam Building, Toronto, and receive without charge or obligation the new fall and winter catalogue. You will most certainly be interested in studying the new styles shown in this book exclusively.

New Aerial Base

The establishment of a new aerial base at Forest Island, north of Norway House, for the purpose of extending still farther the limits of territory patrolled by the air patrol for fire protection in Manitoba, has been authorized and the buildings are already under construction. The value of the air patrol has proved itself, and will probably be extended next year, according to D. A. Macdonald, Assistant District Forest Inspector, who visited Norway House recently.

The Poor Man's Friend.—Put up in small bottles that are easily portable and sold for a very small sum, Dr. Thomas' Electric Oil possesses power in concentrated form. Its cheapness and the varied uses to which it can be put make it the poor man's friend. No dealer's stock is complete without it.

Wembley Loss Reported Four Million Pounds

Not Much Chance Of Opening Fair Next Year

The Sunday Express asserts that the loss sustained by the guarantors of the Wembley Exhibition is at least £4,000,000.

The question of re-opening the fair again next year, says the Express, is still in the balance, but now that Canada has withdrawn from the project and the other dominions are doubtful of success, the policy of throwing in more millions in the hope of recovering the vast losses lacks essential support.

The Express also recalls that J. H. Thomas, Colonial Secretary, when asking Parliament for an increase of the Government guarantee for the exhibition, ventured to assert that "not one copper of the increased guarantee" would be required.

Minard's Liniment for Dandruff

Butterfat Production Of Alberta

The butterfat production of Alberta for the seven months ending July 21st shows an increase of over twenty per cent., the total output for the period being 8,910,975 pounds as against 7,413,767 in the same period in 1923.

For Corns and Warts—Minard's Liniment

World's Largest And Strongest Vault

London Bank Has Installed Thief-Proof Safe

Installed in the new headquarters of the Westminster Bank, Ltd., Lothbury, E.C., is a set of strong rooms which is the largest in the world and guaranteed to defy the hand and brain of the cleverest thief.

It has taken two years to build, has two stories, and goes down 25 feet below street level. The walls, nearly 3 feet thick, are of finest blue brick faced with reinforced concrete and lined with steel slabs warranted to resist the hottest flame of the oxy-acetylene blow-pipe.

Three hundred tons of steel have been used in the construction of the rooms, the floors, ceiling and pillars of which are all steel. Each of the four main doors weighs more than 6 tons, but they are so beautifully hinged that when free they can be moved with one hand. The bolting mechanism, worked by wheels of steering-gear pattern, is controlled by a series of locks of unique design. The doors are also provided with a special safeguard in case of explosives being used in an attack on them.

The largest of the four rooms is 70 feet long. Many cartloads of bullion and specie can be stored there—tons of money and hundredweights of securities.

And within these triply guarded walls of brick, steel and cement, about 40 large safes will rest secure from unlawful disturbance.

"DIAMOND DYE" IT A BEAUTIFUL COLOR

Perfect home dyeing and tinting guaranteed with Diamond Dyes. Just dip in cold water to tint soft, delicate shades, or boil to dye rich, permanent colors. Each

15-cent package contains directions so simple any woman can dye or tint lingerie, silks, ribbons, skirts, waists, dresses, coats, stockings, sweaters, draperies, coverings, hangings, everything new.

Buy "Diamond Dyes"—no other kind—and tell your druggist whether the material you wish to color is wool or silk, or whether it is linen, cotton, or mixed goods.

The ease with which corns and warts can be removed by Holloway's Corn Remover is its strongest recommendation. It seldom fails.

China's Burial Grounds

The burial grounds of China have always been held sacred, not to be disturbed under any circumstances. The result is that one-twentieth of the country is now occupied by graves. The problem is assuming serious proportions.—Dearborn Independent.

MRS. ROSE PETERS

Toronto Woman Advises Young Mothers!

Toronto, Ont.—"During all my year of wifehood and motherhood I have had such great comfort from the use of Dr. Pierce's Favorite Prescription that I do not hesitate to recommend it to other women who need strength and help during expectancy. 'Favorite Prescription' relieved me of all nausea or sick stomach, and kept me well and strong. I took this splendid tonic and nerve during each of my four expectant periods and I feel quite sure that my babies were just as greatly benefited as I myself, for they were plump and exceedingly healthy from the first moment."—Mrs. Rose Peters, No. 27, Sackville Street.

Health is most important to every woman. You cannot afford to neglect it when your neighborhood druggist can supply you with Favorite Prescription, in tablets or liquid. This Prescription is made in Dr. Pierce's Laboratory in Bridgeburg, Ont. Send 10 cents there if you wish a trial package.

ASPIRIN

Insist on BAYER TABLETS OF ASPIRIN

Unless you see the "Bayer Cross" on tablets you are not getting the genuine Bayer product proved safe by millions and prescribed by physicians 24 years for

Colds Headache
Pain Neuralgia
Toothache Lumbago
Neuritis Rheumatism

Accept only "Bayer" package which contains proven directions.

Handy "Bayer" boxes of 12 tablets—Also bottles of 24 and 100—Druggists. Aspirin is the trade mark (registered in Canada) of Bayer Manufacturing of Monoacetic acid ester of Salicylic acid (Acetyl Salicylic Acid, "A. S. A."). While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

SUNDAY SCHOOL LESSON

OCTOBER 19

THE PARABLE OF THE SOWER

Golden Text: The sower soweth the word. Mark 4:14.

Lesson: Mark 4:1-20.

Devotional Reading: Psalm 1.

The Text Explained and Illumined

The Parable of the Sower: A Study in Soils, verses 1-9. Sitting in a boat on the Sea of Galilee far enough from the multitude on the shore to be free from their importunities, yet near enough to address them, Jesus taught them many things by means of parables. The Greek verb from which the word parable is derived means literally to place side by side, hence to compare; a parable is a comparison. Webster defines a parable as a short fictitious narrative of something which might really occur in life or nature, by means of which a moral is drawn. An excellent definition of a parable as used by Jesus has thus been given: "A narrative, fictitious, but agreeable to the laws and usages of human life, by which either the duties of men or the things of God, particularly the nature and history of God's kingdom, are figuratively portrayed." Within the view of Jesus as he spoke this Parable of the Sower was doubtless a sower at work in a cornfield which descended to the water's edge. Dean Stanley describes such a field: "There was the trodden pathway running through the midst of it, with no fence or hedge to prevent the seed from falling here or there on either side of it or upon it; itself hard with the constant tramp of horse, mule and human feet. There was the good rich soil; there was the rocky ground of the hillside protruding here and there through the cornfields; there were the large bushes of thorn—the mark, that kind of which tradition says the crown of thorns was woven—springing up in the very midst of the waving wheat."

DO NOT CUT "CAKE" BUT SCRAPE IT OUT

Removing the "cake" which gradually forms inside the bowls of Briar pipes should be removed from time to time, says an old smoker. It left in the bowl it is apt to split it because the "cake" or "cone" expands with heat much more rapidly than the wood of which the bowl is made.

The man who wants to get the fullest satisfaction from his favorite tobacco, such as "Macdonald's BRIER," will be careful of the way he removes this "cake" however. If the inner surface of the bowl is roughened it will make it liable to burn.

A scraper, made for the purpose, and not an ordinary knife, should be used for this purpose, just as the best tobacco in Canada—Brier—is used by more men than any other to give them the greatest pipe satisfaction possible.

After the bowl has been scraped out the same precautions as to slow smoking and light filling with Brier, should be taken as with a new pipe.

During the first nine months of last year, 20,509 skilled workers in the building trades left Great Britain for new lands.

Minard's Liniment for Sprains and Bruises

American Rye In Europe

An estimated rye shortage of 130,000,000 bushels in Europe this season has resulted in an enormous demand for American rye.

It is estimated that sales to Southern European countries in the last week alone have been in excess of 10,000,000 bushels. Prices have advanced 8 cents a bushel and are now only 25 cents under the level of wheat, whereas a short time ago the difference was 40 cents.

Sleep is the great nourisher of infants, and without peaceful sleep the child will not thrive. This cannot be got if the infant be troubled with worms. Miller's Worm Powders will destroy worms and drive them from the system, and afterwards the child's rest will be undisturbed. The powders cannot injure the most delicate baby, and there is nothing so effective for restoring the health of a worm-worm infant.

Five tons of fish, preserved by carbon dioxide instead of ice, were shipped from Nova Scotia to Montreal, a three-day journey.

For years Mother Graves' Worm Exterminator has ranked as a reliable worm preparation and it always maintains its reputation.

Orange and lemon juice stands now occupy hundreds of old saloons in New York. As most of the leases run for twenty-one year it does not look as though the orange drink companies anticipate the return of beer.

MEETING RINKS SHAREHOLDERS

The annual meeting of the shareholders of the Didsbury Rinks, Ltd., will be held on Thursday evening, October 16th, at 8 p. m. in the office of the Royal Bank. All shareholders are requested to be present as there is important business to come before the meeting.

AROUND THE TOWN

The many friends of Mr. W. F. Sick will be very sorry to learn that he is in very poor health at present. It will be sincerely hoped that he will soon recover.

The evening programs for the Chautauqua will commence at 8.30 p. m. instead of 8 o'clock so that the farmers will have a better opportunity of attending.

Secord Gilmore, son of Mr. L. Gilmore, was kicked in the mouth by a horse on Monday night, causing a severe cut along the upper lip. Dr. J. L. Clarke dressed the injury and Secord is nursing a patched up face.

"Tomb Hunting in the Valley of the Kings," an illustrated lecture by C. V. Hall, B. D., promises to be one of the most interesting numbers on a program replete with good things at the Chautauqua commencing on Saturday. Mr. Hall was present when the tomb of Tut. Ankh. Amon was opened and will have an interesting story to tell.

Mr. Arnold, Liesemer, son of Mr. and Mrs. W. G. Liesemer, left on Friday last for Chicago to complete his studies at the University there. Arne has been attending the Alberta University previously but wished to take more advanced studies and decided on Chicago as being the best place.

Mr. Horace Reynolds, the well known singer of Calgary, entertained a large audience at the Community Hall on Saturday night and again at the religious services there on Sunday afternoon. On Sunday evening the congregation of Knox Presbyterian church was also agreeably surprised by his appearance at their services when he rendered two splendid solos for them. Needless to say Mr. Reynolds singing at all these meetings was very much appreciated by those present and by those who were in charge.

The annual convention of the Alberta Registered Nurses' Association and Alberta Hospital Association will take place at the MacDonald Hotel, Edmonton, November 12th and 13th.

The Executives of both associations are preparing an exceptionally interesting program that will undoubtedly interest the Private and Institutional Nurses, Hospital Superintendents, Sec'y., Treasurers and Board trustees.

BIG CAST SUPPORTS POLA NEGRI IN PICTURE "MEN"

The cast playing in support of Pola Negri in her newest Paramount picture, "Men," showing at the Opera House next week, sets a new mark for big names. Robert Frazer has the principal male role, with Robert Edeson and Joseph Swickard in equally important parts. Monti Collins has a great character role; Gino Corrado is a suave villain and Edgar Norton an unscrupulous baron.

"Men" is an original screen story written by Dimitri Buchowetzki who was brought to the United States from Europe to produce his story with Pola Negri in the starring role. It's an intensely colorful and gripping tale of rapid fire romance. You'll like it.

Silence That Is Not Golden

THE merchant who fails to "speak up" lets a lot of golden sales slip past his store. This lost business goes either to his competitor down street or by the mail order route to the big city stores.

People are often surprised to find that the goods they bought "unsight unseen" from a catalogue can be seen and examined in the local store!

Tell your buying public what you have. ADVERTISING in "The Didsbury Pioneer" will invite the whole community to your store. And—
